

Prior to buying shares of XO I checked there website for information. This Company stated that they had plenty of cash to get them thru till 2003. There investor site gave me a great picture that this company was good to invest in. I lost over \$6000.00 by investing in this company that did notinh but lie and then try to cover up there lies. This companies website motto says "we stand united". Who with? Not there investors.
